

PICKS UP DIRT - DOESN'T PUSH IT

DustHungry® CLEAN ROOM CLEANING CLOTH

PICKS UP DIRT - DOESN'T PUSH IT

- Lifts and traps fine particles
- Absorbs fingerprint oils
- Lint-free, streak-free cleaning

MADE IN CANADA

WHY DUSTHUNGRY?

Unlike conventional microfiber cloths that can move dust across a surface, DustHungry is engineered to lift, trap and retain fine particles while absorbing fingerprint oils.

Its white material makes contamination visible - a practical advantage for clean-room protocols and sensitive equipment.

LIFT & TRAP

Captures fine dust and particles.

OIL ABSORPTION

Helps remove fingerprint oils.

CLEAN FINISH

Lint-free, streak-free cleaning.

VISIBLE CONTROL

White surface shows contamination.

KEY BENEFITS

- Picks up dirt instead of pushing it around
- Absorbs oils left by fingertips
- Helps reduce cross-contamination
- Chemical-free cleaning for many surfaces

IDEAL APPLICATIONS

- Clean rooms, laboratories and pharmaceutical facilities
- Electronics, precision assembly and inspection areas
- Machine HMI screens, monitors and touch displays
- Optical instruments and sensitive equipment
